Jabra BT250v Overview

- 1 Blue Indicator Light
- 2 Multi-Function Button
- 3 Volume Control Button
- 4 Charging Cradle
- 5 MiniGel™

STOP: BEFORE USING YOUR HEADSET

1 Check phone compatibility

The Jabra BT250v is compatible with most Bluetooth¹ (see *Glossary*) phones that are compliant with Bluetooth version 1.1 or higher specification and support the headset and/or hands-free profile(s)². Ensure that your phone has Bluetooth capability by either visiting your phone manufacturer's web site or Jabra's web site at www.jabra.com

Jabra also provides Bluetooth headsets for most non-Bluetooth phones.

2 Charge Jabra BT250v

Jabra BT250v uses a rechargeable battery that must be charged fully before you use the headset for the first time.

1. Fully insert the headset into the charging cradle.
2. Plug the Jabra BT250v AC adaptor into the headset's charging cradle.
3. Plug the AC adaptor into the electrical outlet.
4. Charge your headset until the blue light on Jabra BT250v turns off. The unit will be fully charged in approximately 2 hours.

5. Unplug the AC adaptor from the charging cradle.
6. Remove the headset from the charging cradle. You are now ready to "pair" Jabra BT250v to your mobile phone. If the headset has already been paired to your phone, then you can begin using it.

⚠ WARNING: Do not attempt to charge Jabra BT250v with anything other than the AC adaptor provided. Using another AC adaptor may damage or destroy the headset.

Fig. 1

⚠ IMPORTANT: The blue indicator light will be on while charging and will turn off when charging is complete. Removing the headset from the charging cradle while it's charging will put the headset into standby mode and stop the charging sequence.

⚠ IMPORTANT: Jabra BT250v cannot be used while charging.

3 Read the glossary

Read the glossary at the end of this document to familiarize yourself with important terms used in this User Manual.

Once Jabra BT250v is fully charged, continue with these instructions.

4 "Pair" to your Bluetooth phone

Pairing³ will create a unique and encrypted wireless link between two Bluetooth enabled devices such as your Bluetooth phone and Jabra BT250v.

1. Ensure the headset is off (see **Turning headset on/off** section).
2. Press and hold  until you see a **solid blue light** (approximately 8 seconds), then release* (see **Fig. 2**).
3. Set your Bluetooth phone to "discover" the headset by following your phone's instruction guide. Typically, the steps involve going to a "setup", "connect", or "Bluetooth" menu **on your phone** and then selecting the option to "discover" a Bluetooth device.
4. Your phone will find the "Jabra BT250v" headset and ask if you want to pair with it. Confirm this by pressing "yes" or "ok".
5. Enter **passkey or PIN⁴ = 0000 (4 zeros)**, then press "yes" or "ok".

Fig. 2

Fig. 3

❗ **IMPORTANT:** If pairing was successful, the blue indicator light will briefly flash rapidly before going back to flashing every 3 seconds. If unsuccessful, the light remains solid, and you'll need to reattempt pairing (see steps 3–5 above).

* If you have a Bluetooth phone that supports the **hands-free** Bluetooth profile, see **Enhanced features** section for alternative pairing instructions. Phone-specific pairing instructions can be found online at www.jabra.com/fscs

5 Turning on/off call alert vibrate

The Jabra 250v has a unique call alert feature that vibrates to inform you that you are receiving a call. The vibrate function is enabled when you first turn on the Jabra 250v. If you turn on the headset in the usual way without touching the volume button, the vibrate function will remain enabled.

1. To turn off the vibrate feature, hold the volume-down button while you turn the headset on.
2. If you wish to re-activate the vibrate feature, hold the volume-up button while you turn the headset on.

BASIC OPERATIONS

6 Turning headset on/off

	What you do	What you hear	What you see
Turning headset on	Press and hold  for 3 to 5 seconds until you see a burst of flashes on the blue indicator light, then release	Ascending (low-to-high) tones	The blue indicator light will flash while the power is on (see Status indicators table below)
Turning headset off	Press and hold  for 3 to 5 seconds until you see a burst of flashes on the blue indicator light, then release	Descending (high-to-low) tones	The blue indicator light will stop flashing

Status indicators

What you see	What you hear	Status
Flashes every second	Quick series of 2 tones – low to high pitch (when active mode starts)	Active Mode⁵ <ul style="list-style-type: none"> • Call in progress • Up to 7 hours of talk-time*
Flashes every 3 seconds	Quick series of 2 tones – high to low pitch (when standby mode starts)	Standby Mode⁶ <ul style="list-style-type: none"> • Waiting for call • Up to 200 hours of standby time*
3 flashes every second	3 beeps every 30 seconds	Low Battery (in active mode) <ul style="list-style-type: none"> • 3 – 5 minutes of talk time left
3 flashes every 3 seconds	3 beeps every 5 minutes	Low Battery (in standby mode) <ul style="list-style-type: none"> • 3 – 5 minutes of talk time left

* Depending on phone type and usage.

- ❗ **IMPORTANT:** Do not hold the  button down for more than 3 to 5 seconds when turning the headset on or else it may go into pairing mode, and the blue indicator light will turn solid. If that happens, turn off the headset, wait 3 to 5 seconds, and repeat process for turning the headset on.

7 Choosing wearing preference

Jabra BT250v is ready to wear on the right ear. If you prefer the left, gently rotate the MiniGel 180°.

For optimal performance, wear Jabra BT250v and your Bluetooth phone on the same side of your body. In general, you will get better performance when there are no obstructions (including parts of your body) between the headset and the phone.

Fig. 4

8 Making a call

If Jabra BT250v is off, turn it on now (see **Turning headset on/off** section).

Using phone's keypad

1. Dial number on keypad.
2. Press phone's "send" key.

Using voice-activated dialing (after you've set up voice tags on your phone)

1. Press and release  once. You'll hear 1 short beep while doing this.
2. You'll then hear the voice-activation tone; say the name of the person you wish to call.

- ❗ **NOTE:** Record voice tag from headset for better reception.

9 Ending a call

- Press and release  once
- OR**
- End call from phone's keypad

10 Answering a call

- After you hear the ring tone, press and release  once
- OR**
- Answer the call with your phone's keypad. You may then need to transfer the call to the headset by pressing and releasing  once (depending on your phone)

11 Call-waiting*

- (Recommended) Use standard method from your phone's keypad which typically involves pressing the "send" button
 - OR**
 - Press and release  once to answer the incoming call and toggle between calls (some phones do not support this headset feature)
- ❗ **IMPORTANT:** Do not hold the  button down too long when making, ending, or answering a call. This should only be a quick tap, so you don't put the headset into pairing mode by accident.

* See **Enhanced features** section for alternative call-waiting instructions for phones that support the hands-free profile.

TIPS AND SOLUTIONS

12 Resetting the headset

If the headset is not responding or the blue light will not turn on or off after pairing, you may need to **RESET** your headset.

1. Fully insert the headset into the charging cradle.
2. Plug the Jabra BT250v AC adaptor into the headset's charging cradle.
3. Plug the AC adaptor into the electrical outlet.
4. Leave the headset in the charging cradle for about 3 seconds, then remove the headset (see Fig. 1).
5. Unplug the AC adaptor from the charging cradle.

13 Tips for Nokia Bluetooth phones

(Such as Nokia 6310 and 8910 series)

Please ensure that the headset is allowed by the phone to connect without authorization. To do this, you must adjust your phone's settings.

Set the following menu options:

- Menu > Bluetooth > View Paired Devices > select your headset, press "Options" > Request conn. authorization? — No

14 Enhanced features (for Bluetooth phones with hands-free profiles)

Enhanced features are available for phones that support the hands-free Bluetooth profile such as **Nokia 3600, 3650, 6310, 6310i, 8910, 8910i, Sony Ericsson T610, T616, T618, Siemens S55 and S56**. Check your phone's instruction guide or contact the phone manufacturer if you are not sure if your phone supports the hands-free Bluetooth profile.

You can enable these enhanced features by using the following alternative pairing sequence.

"Pairing" to a Bluetooth phone with hands-free profile:

1. Ensure headset is off (see **Turning headset on/off** section).
2. Press and hold  plus the **volume up button** until you see a **solid** blue light (approximately 8 seconds), then **release** (see Fig. 5).
3. Set your Bluetooth phone to "discover" the headset by following your phone's instruction guide. Typically, the steps involve going to a "setup", "connect", or "Bluetooth" menu **on your phone** and then selecting the option to "discover" a Bluetooth device*.
4. Your phone will find the "Jabra BT250v" headset and ask if you want to pair with it. Confirm this by pressing "yes" or "ok".
5. Enter **passkey or PIN = 0000 (4 zeros)**, then press "yes" or "ok".

Fig. 5

Fig. 6

* Phone-specific pairing instructions and the most current list of phones with hands-free profile can be found online at www.jabra.com/fscs

- ❗ **IMPORTANT:** If pairing was successful, the blue indicator light will briefly flash rapidly before going back to flashing every 3 seconds. If unsuccessful, the light remains solid, and you'll need to reattempt pairing (see steps 3–5 above).

Once you're done pairing, the following new headset features will be available:

- **Last number redial** (when not on a call)
While the headset is on, press and hold **1** until you hear **2** short beeps, release immediately
- **Rejecting an incoming call** (when not on a call)
When your phone rings, press and hold **1** until you hear **2** short beeps, release immediately
- **Call-waiting** (swapping between 2 calls)
When your phone notifies you of another incoming call while you're on a call, press and hold **1** until you hear **2** short beeps, release immediately
- **Putting a call on hold**
While you're on a call, press and hold **1** until you hear **2** short beeps, release immediately. Repeat to retrieve the call

15 Frequently asked questions

1. **How far away from my phone will my Jabra BT250v work?**
The operating range is typically up to 33 feet (10 metres).
2. **Will Jabra BT250v work with my cordless phone at home?**
Jabra BT250v is not designed for use with cordless phones.
3. **Will Jabra BT250v work with laptops, PCs, and PDAs?**
Jabra BT250v will work with devices that are compliant with Bluetooth version 1.1 or higher specifications and support the headset and/or hands-free profile(s).
4. **Will anything cause interference with my conversation when I'm using my Jabra BT250v?**
Appliances such as cordless phones and wireless networking equipment may cause interference with your conversation, usually adding a crackling noise. To reduce any interference, keep the headset away from other devices that use or produce radio waves.

5. Will my Jabra BT250v interfere with my car's electronics, radio, or computer?

Jabra BT250v produces significantly less power than a typical mobile phone. It also only emits signals that are in compliance with the international Bluetooth standard. Therefore, you should not expect any interference with standard consumer-grade electronics equipment.

6. Can other Bluetooth phone users hear my conversation?

When you pair your headset to your Bluetooth phone, you are creating a private link between only these two Bluetooth devices. The wireless Bluetooth technology used in your headset is not easily monitored by third parties because Bluetooth wireless signals are significantly lower in radio frequency power than those produced by a typical mobile phone.

7. What material is the headset made of?

The MiniGel is made of PVC (polyvinyl chloride), a form of plastic. The headset itself is primarily made of thermoplastic polyurethane, which is a soft plastic. The face of the headset, where the buttons are located, is made of polycarbonate, a very strong, hard plastic. Neither the MiniGel nor the headset contains latex.

8. How do I take care of Jabra BT250v?

- To clean the headset, use a clean, soft cloth that is slightly damp
- To clean the MiniGel, remove it from the headset by gently lifting and pulling it off the speaker housing. Then, wash it in warm, soapy water

16 Need more help?

1. Web: www.jabra.com/fscs (for the latest support info and online User Manuals).
2. E-mail and telephone support: See back inside cover for customer service support telephone numbers and e-mail.

17 Storage of headset

1. Always store the Jabra BT250v with power off and safely protected.
2. Avoid storage at high temperatures (above 60°C / 134°F) – such as in a hot vehicle or in direct sunlight. (Storage at high temperatures can degrade performance and reduce battery life).
3. Do not expose the headset or any of its supplied parts to rain or other liquids.

18 Certification and safety approvals

- EU** This product is CE marked according to the provisions of the R & TTE Directive (99/5/EC).

Hereby, GN Netcom, declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

For further information please consult <http://www.gnnetcom.com>

- !** Please note that this product uses radio frequency bands not harmonised within EU. Within the EU this product is intended to be used in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, The Netherlands, Portugal, Spain, Sweden, United Kingdom and within EFTA in Iceland, Norway and Switzerland.

Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by Jabra (GN Netcom) will void the user's authority to operate the equipment.

19 Warranty and parts replacement

Jabra (GN Netcom) warrants this product against all defects in material and workmanship for a period of two years from the date of original purchase. The conditions of this warranty and our responsibilities under this warranty are as follows:

- The warranty is limited to the original purchaser
- A copy of your receipt or other proof of purchase is required. Without proof of purchase, your warranty is defined as beginning on the date of manufacture as labelled on the product
- The warranty is void if the serial number, date code label or product label is removed, or if the product has been subject to physical abuse, improper installation, modification, or repair by unauthorized third parties
- The responsibility of Jabra (GN Netcom) products shall be limited to the repair or replacement of the product at its sole discretion
- Any implied warranty on Jabra (GN Netcom) products is limited to two years from the date of purchase on all parts, including any cords and connectors
- Specifically exempt from any warranty are limited-life consumable components subject to normal wear and tear, such as microphone windscreens, ear cushions, decorative finishes, batteries, and other accessories
- Jabra (GN Netcom) is not liable for any incidental or consequential damages arising from the use or misuse of any Jabra (GN Netcom) product
- This warranty gives you specific rights and you may have other rights which vary from area to area
- Unless otherwise instructed in the User Manual, the user may not, under any circumstances, attempt to perform service, adjustments or repairs on this unit, whether in or out of warranty. It must be returned to the purchase point, factory or authorized service agency for all such work
- Jabra (GN Netcom) will not assume any responsibility for any loss or damage incurred in shipping. Any repair work on Jabra (GN Netcom) products by unauthorized third parties voids any warranty
